

DRY CAR

Professional dryer for seats and upholstery

A DRY CAR IN LESS THAN AN HOUR? With dry car it is possible!

Dry Car is a professional dryer for cars interiors able to dry seats and upholstery in a single solution.

No bags for drying but two adjustable bars conceived for any car with adjustable diffusers in order to guarantee uniform drying in a single operation. Economical, powerful and safe thanks to the strong jet of hot air, the delivery time of the car decreases and eliminates the risk of mold and bad smells inside the car.
